ABOUT WINGS

Our world is within us

We Are Wings Lifestyles Manufacturers & Retailers, Women's Casual Wear. "Suti" is a brand in India for woman's wear with its own in house massive manufacturing unit. Since past 15 years we have maintained a dedicated team who carefully observe every minute detail in the manufacturing of best quality products.

Every process of garment making under one roof From designing , dyeing, printing, embroidery, stitching, finishing, washing, packaging, dispatching, marketing, sales; we do it all with grace, honesty and grit. It is our prerogative to make you one with your inner beauty and to do that we ensure core quality and for that we do not outsource, so as to see everything happening in close supervision. The source of fabric is exclusive to us and makes it for our exact specification.

Grandiosity in the making 10000sq ft. and 1000machines all set for the purpose. Every minute care taken into consideration, every

requisite taken care off, all materials eco-friendly, Quality best in terms of fabric, design, print, durability etc. Different processes like Cutting, Printing, Stitching, Embroidery, Smocking, Shirring, Sequencing , Beadwork etc. are executed with finesse. Our team has core experience and vast comprehension of Global fashion. We understand the pulse of the female gender for latest fashion trends and demands in a better way. Thus "Suti" actually forecasts the fashion.

Exclusivity's calling: keeping the artisans legacy alive as Sharp, as Precise, as Unique Exposing and exploring the magic of local artisans and giving them their worth is important to us. The local artisans are a suppressed lot and we are here not just for business but also to resurrect them. Hand embroidery is no baby business and is what makes your dress so special. Anything which stands out can't be cheap. The Kattha work is a family profession for the local artisans and this skill flows in

their very bloodline. Adda work is an almost lost art which can only be done by a very small and extremely skilled lot of legendary artisans who have an extreme eye for detail and we our doing our best to preserve their legacy which only existed for the Maharajas of yesteryears. It means that all their love and karma is in it, to be your lucky charm. "Don't forget people in the background create people in the headlines". The money you spend, would help the families who have made your garments so perfect. So, please keep compassion in your heart and pay honor, respect, worth & their deserved margin. What we give is what we get back, Princess, and who would know that better than your own glowing heart and loving soul.

"We are honest to ourself and serve our conscience first. We should care for the world which makes us exclusive".
